Mr Alexander Zlobin, Director

**TO WHOM IT MAY CONCERN – REFERENCES FOR
MR ALEXEI NECHAEV – ENGLISH-RUSSIAN TRANSLATOR**

I have been using Translation Services of Mr Alexei Nechaev 10-13th December 2012. As I have no knowledge of Russian, he helped to coordinate equipment delivery with Transport Company and instructed customer workforce on unloading of 13 containers with packaging equipment from Europe, in factory located 40 kilometres from Saransk. His services appeared to be invaluable in timely and safe delivery & unloading of the equipment for my customer.

I can describe Mr Nechaev as a very professional and experienced translator. It is also worth mentioning that I am impressed with the fact that he has profoundly researched information about Ishida Europe prior to my arrival in Russia and helped finding local facilities necessary for installation which will take place in 2013 – both were not part of the original job description and undertaken by Mr Nechaev own initiative.

I can definitely recommend Mr Nechaev Services and whenever necessary, I will use his Services again. Please do not hesitate to contact me with any further enquiries regarding his Services.
